ASSASSINATION OF PRESIDENT
JOHN FITZGERALD KENNEDY
November 22, 1963
Dallas, Texas
MISCELLANEOUS - INFORMATION CONCERNING

On 10/3/75, source indicated that EARL GOLZ, reporter of Dallas Morning News, Dallas, Texas, had come into possession of documents three years ago from PAUL ROTHERMEL, former Special Agent of the FBI and Chief of Security for Hunt Oil Company. GOLZ had told source he has a document dated 11/4/63 from ROTHERMEL to H.L. HUNT which states "He (ROTHERMEL) was told by a reliable source that there would be violence along the parade route" to be taken by the President of the United States JOHN F. KENNEDY. The letter goes on to state that ROTHERMEL reported this information to the Dallas Police Department and the FBI.

Source indicated that since GOLZ has, over the years, been writing stories of possible conspiratorial plot to assassinate the President, that GOLZ will, if the story is written, try to tie in H.L. HUNT, now deceased, into gathering information about the upcoming visit of the President. It was not known when ROTHERMEL had advised Dallas Police Department and FBI nor the identity of the "reliable source."

GOLZ is of the opinion, although never proved conclusively, the source advised, that HUNT made contributions to the John Birch Society in California, who in turn were financing a group of trained assassins of the President, including an individual by the name of EUGENE BRADY, who is alleged to have visited HUNT a few days before the assassination.

Source indicated that he would attempt to ascertain if GOLZ writes the story, which, if written, will possibly appear in the Dallas Morning News within the week, 10/6/75 through 10/13/75.
